history, and more. Plus, get practice tests, quizzes, and personalized coaching to help you succeed.

Hypertonic Solution: Definition, Effect & Example - Video ...

NCERT Solutions for Class 12 Chemistry: The NCERT solutions provided here will enhance the concepts of the students, as well as suggest alternative methods to solve particular problems to the teachers. The target is to direct individuals towards problem solving strategies, rather than solving problems in one prescribed format.

NCERT Solutions for Class 12 Chemistry - Learn CBSE

We care about molality because freezing point depression is a colligative property, a property that depends on how many solute particles are in the solvent, not the kind of solute particles. Molality, m , is one piece of this "how many solute particles are present?" question. The Van 't Hoff factor is the second part of the "how many solute particles are present?"
