Problem-based learning (PBL) is a student-centered pedagogy in which students learn about a subject through the experience of solving an open-ended problem found in trigger material. The PBL process does not focus on problem solving with a defined solution, but it allows for the development of other desirable skills and attributes. This includes knowledge acquisition, enhanced group ...

In a rapidly changing healthcare environment, clinical healthcare professionals face difficult choices concerning what is best for their patients. In some cases, these choices become enmeshed in ethical dilemmas; additionally, what patients choose for themselves may not be in unison with what the family or physicians believe should be done.
