One of the most common myths about psychology is that it is just "common sense." The problem with this is that psychological research has helped demonstrate that many of the things that we believe are just common sense are actually not true at all.

8 Basic Psychology Facts You Should Know - Verywell Mind

In most cases, procrastination is not a sign of a serious problem. It's a common tendency that we all give in to at some point or another. It is only in cases where procrastination becomes so chronic that it begins to have a serious impact on a person's daily life that it becomes a more serious issue.
