Any object that has energy has the ability to . a. burn b. produce a change c. fall 2. If the environment does work on a system, .

### **Use with Chapter 10. - Angelfire**

The total work is the work done by the net force. After 50 m, the car moves with constant velocity so the net force is zero. This means that the total work done on the car after 50 m is zero. Another way to see this is that the car's speed, hence its KE, isn't changing. This means the total work is zero.
