Students have to simplify the expressions and match them to their simplified form. My high school math students loved this math activity last year and I plan to use it again this year!

### **Combining Like Terms | Worksheet | Education.com**

When combining like terms it is important to preserve the equality of the equation by only combining like terms on one side at a time. We will simplify the left hand side first. The first step is to find pairs of like terms, the second step is to add. The  $x$  and  $3x$  are like terms, so they are added resulting in  $4x$ .

### **Combining Like Terms Lessons | Wyzant Resources**

Get access to a huge collection of simplifying algebraic expression worksheets on topics like simplifying linear and polynomial expressions by combining like terms, factorize and reduce the rational expression, and more.
