### Periodic Trends Worksheet Answers

Review of Periodic Trends You will need to periodic table to complete this activity. Choose the correct answer for each question. Show all questions <= => ... As one moves from down ( ↓ ) a group on the periodic table, the ionization energy of the elements encountered tends to: ?

### Review of Periodic Trends - ScienceGeek.net

I start by passing out the Graphing Periodic Trends Activity paper. I then read the instructions to students highlighting how these three trends are important and that we will discuss in more detail through notes. I then begin to model how to begin to fill out the trend for atomic radius and go over the trend across periods.

### Ninth grade Lesson Periodic Table Trends | BetterLesson

The trend for electron affinity increases upwards through a group, and rightwards along a period. The noble gasses already have full octets, so the increasing trend stops at the halogens and the noble gasses have extremely low values. The element with the highest electron affinity is fluorine.

### AP Chemistry : Periodic Trends - Varsity Tutors

In this activity, you will discover the periodic trends of atomic radius, ionization energy, and electron affinity. Answer the following questions before beginning this investigation. Describe the trends you are aware of that exist on the periodic table. Define atomic radius, ionization energy and electron affinity. ATOMIC RADIUS
