Color Purple Answer Key

Purple is a color intermediate between blue and red. It is similar to violet, but unlike violet, which is a spectral color with its own wavelength on the visible spectrum of light, purple is a secondary color made by combining red and blue. The complementary color of purple in the RYB color model is yellow.. According to surveys in Europe and North America, purple is the color most often ...

Purple - Wikipedia

Violet is the color at the end of the visible spectrum of light between blue and the invisible ultraviolet. Violet color has a dominant wavelength of approximately 380-450 nanometers. Light with a shorter wavelength than violet but longer than X-rays and gamma rays is called ultraviolet. In the color wheel historically used by painters, it is located between blue and purple.

Violet (color) - Wikipedia

To answer those questions, we first have to understand what leaves are and what they do. Search now for "fall foliage" Find maps, dates, and best scenic drives for fall colors
