Readability is the ease with which a reader can understand a written text. In natural language, the readability of text depends on its content (the complexity of its vocabulary and syntax) and its presentation (such as typographic aspects like font size, line height, and line length). Researchers have used various factors to measure readability, such as ...

Basic Interpersonal Communication Skills (BICS) is often referred to as "playground English", "survival English", or "social language." It is the basic language ability required for face-to-face communication where linguistic interactions are embedded in a situational context called context-embedded language. BICS is part of a theory of language proficiency developed by Jim Cummins.
