Chapter 54 Community Ecology Reading

Paul Andersen explains how ecosystems function. He begins with a description of how life on the planet is ordered from large to small in biomes, ecosystems, communities, population, and individuals.

AP ES-007 Ecosystem Ecology — bozemanscience

Restoration ecology is the scientific study supporting the practice of ecological restoration, which is the practice of renewing and restoring degraded, damaged, or destroyed ecosystems and habitats in the environment by active human intervention and action.. Natural ecosystems provide ecosystem services in the form of resources such as food, fuel, and timber; the purification of air and water ...

For purposes of this report, community is defined as any group of people who share geographic space, interests, goals, or history. A community offers a diversity of potential targets for prevention and is often conceived of as an encompassing, proximal, and comprehensive structure that provides opportunities and resources that shape people's lifestyle (McIntyre and Ellaway, 2000).

2 Community-Based Prevention - The National Academies Press

Ecology is a new science and considered as an important branch of biological science, having only become prominent during the second half of the 20th century. Ecological thought is derivative of established currents in philosophy, particularly from ethics and politics. Its history stems all the way back to the 4th century.

History of ecology - Wikipedia

Thomas Berry (1914-2009) was a historian of world religions and an early voice awakening moral sensibilities to the environmental crisis. He is known for articulating a "new story" of the universe that explores the implications of the evolutionary sciences and cultural traditions for creating a flourishing future.
