As a Focal Point on Protection from Sexual Exploitation and Abuse, your responsibility is to ensure that PSEA systems are in place and that the activities mentioned in the Terms of Reference for PSEA Focal Points are implemented.

PSEA Task Force

The origins of Palestinians are complex and diverse. The region was not originally Arab – its Arabization was a consequence of the inclusion of Palestine within the rapidly expanding Arab Empire conquered by Arabian tribes and their local allies in the first millennium, most significantly during the Islamic conquest of Syria in the 7th century. . Palestine, then a Hellenized region ...

Race and health refers to how being identified with a specific race influences health. Race is a complex concept that changes across time and space and that depends on both self-identification and social recognition. In the study of race and health, scientists organize people in racial categories depending on different factors such as: phenotype, ancestry, social identity, genetic makeup and ...

ABORIGINAL OVER-REPRESENTATION

Climate engineering is mathematically the most destructive form of anthropogenic activity ever unleashed on the biosphere. Geoengineering programs must also be considered biological warfare due to the highly toxic materials that are being dispersed into our skies. The fight to expose and halt climate engineering is a fight for life, nothing less.
