In her dissertation, Academic Redshirting: Perceived Life Satisfaction of Adolescent Males, Jones looked at how boys fare in adolescence depending on whether or not their parents opted to redshirt them in kindergarten. Rather than focus on academic success, which has been covered by a number of other studies, Jones wanted to learn about her subjects' overall life satisfaction—in other words ...

After we were pretty solid on long division, I introduced the concept of interpreting remainders. While they had been working with remainders, we really hadn't required them to think critically about what the remainders represented, particularly in word problems.

### **Teaching With a Mountain View: Teaching Long Division**

The solution is twofold. First, educators have to understand the three components of any powerful feedback system. Second, we have to align the multiple measures we use to create a coherent system of data collection, analysis, and instruction that responds to data in a way that lifts student achievement.
