### **Math.com - World of Math Online**

In antiquity, geometric constructions of figures and lengths were restricted to the use of only a straightedge and compass (or in Plato's case, a compass only; a technique now called a Mascheroni construction). Although the term "ruler" is sometimes used instead of "straightedge," the Greek prescription prohibited markings that could be used to make measurements.

### **Geometric Construction -- from Wolfram MathWorld**

Would you like to know everything about mathematics?. Do you think that is impossible? It isn't if you are willing to read and study many books and videos. You can't learn everything from formal school class lectures - they can't allow time for the information to be completely absorbed.
