"If a tree dies, plant another in its place." Scientists today place all life in neat categories with sensible names that do not change. A few hundred years ago, though, scientists gave plants and animals long Latin names and often changed those names at will. Carl Linnaeus changed that when he developed an organized system that is still used today.

Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.
