MCAT Review

Vagal tone refers to activity of the vagus nerve, the 10th cranial nerve and a fundamental component of the parasympathetic branch of the autonomic nervous system. This branch of the nervous system is not under conscious control and is largely responsible for the regulation of several body compartments at rest.

Vagal tone - Wikipedia

Shock is the state of not enough blood flow to the tissues of the body as a result of problems with the circulatory system. Initial symptoms may include weakness, fast heart rate, fast breathing, sweating, anxiety, and increased thirst. This may be followed by confusion, unconsciousness, or cardiac arrest as complications worsen. Shock is divided into four main types based on the underlying ...

Shock (circulatory) - Wikipedia

The lesson will begin with the teacher engaging the students with a presentation of "How the Blood Gets Around the Body" following a think quest presentation that covers the parts and functions of the circulatory system, including the brain, veins and arteries, heart and blood. Students will explore blood vessels by watching a short video clip, conducting a hands-on investigation about blood ...

Occupational Diseases and other Work-Related Ill-Health The effect that occupation may have on a worker's health is dependent on the exposure (expressed quantitatively) to relevant agents, and on host factors.

Ill-health and the Work Environment

IT IS OFTEN STATED in the literature that LSD was discovered by chance. The following account will show that LSD was not the fruit of a chance discovery, but the outcome of a more complex process that had its beginnings in a definite concept, and was followed up by appropriate experiments, during the course of which a chance observation served to trigger off a planned investigation, which then ...
