6. This brings us to the evolution of one of the two main state variables in our framework, political institutions (the other state variable is the distribution of resources, including distribution of physical and human capital stocks, etc.). Political institutions and the distribution of resources are the state variables in this dynamic system because they typically change relatively slowly ...

06/21/2018 - The White House proposal on restructuring the federal government released today, "Delivering Government Solutions in the 21st Century," delivered nothing but misinformation and, if implemented, would end regular mail and package services at an affordable cost to 157 million addresses every day. Furthermore, the White House plan is an attack on many federal agencies and the ...

In engineering, physics and chemistry, the study of transport phenomena concerns the exchange of mass, energy, charge, momentum and angular momentum between observed and studied systems. While it draws from fields as diverse as continuum mechanics and thermodynamics, it places a heavy emphasis on the commonalities between the topics covered. Mass, momentum, and heat transport all share a very ...
