This page describes the factors controlling the speeds of chemical reactions and the collision theory behind it discussed. The factors affecting the speed of reaction are also presented using particle models to give a theoretical basis to the rules on the effects of concentration, pressure, temperature, solid reactant particle size (surface area), stirring, catalysts and light.

Rates of Reaction Factors affecting speed of reaction ...

General Science Quiz. Solve General Science Quiz Questions from here!!As we know that General Science is the significant section of every competition exam. So, those candidates who are doing preparation of any competition exam must resilient their acquaintance in this subject.
