6. This brings us to the evolution of one of the two main state variables in our framework, political institutions (the other state variable is the distribution of resources, including distribution of physical and human capital stocks, etc.). Political institutions and the distribution of resources are the state variables in this dynamic system because they typically change relatively slowly ...

Fluid statics or hydrostatics is the branch of fluid mechanics that studies fluids at rest. It embraces the study of the conditions under which fluids are at rest in stable equilibrium; and is contrasted with fluid dynamics, the study of fluids in motion. Hydrostatics offers physical explanations for many phenomena of everyday life, such as why atmospheric pressure changes with altitude, why ...

06/21/2018 - The White House proposal on restructuring the federal government released today, "Delivering Government Solutions in the 21st Century," delivered nothing but misinformation and, if implemented, would end regular mail and package services at an affordable cost to 157 million addresses every day. Furthermore, the White House plan is an attack on many federal agencies and the ...
