### **Chapter 4: Data and Databases - Information Systems for ...**

Once the data is downloaded to your machine, you can load some of it using the Python interpreter. The first step is to type a special command at the Python prompt which tells the interpreter to load some texts for us to explore: `from nltk.book import *`. This says "from NLTK's book module, load all items." The book module contains all the data you will need as you read this chapter.
