3. Dimension 1 SCIENTIFIC AND ENGINEERING PRACTICES. From its inception, one of the principal goals of science education has been to cultivate students' scientific habits of mind, develop their capability to engage in scientific inquiry, and teach them how to reason in a scientific context [1, 2]. There has always been a tension, however, between the emphasis that should be placed on ...

Rf values are calculated by looking at the distance each component travels on the chromatography paper compared to the distance traveled by the solvent front. This ratio will be different for each component due to its unique chemical properties. When measuring the distance the component traveled, you should measure from the origin (where the middle of the spot originally was) and then to the ...

From the get go, many people would think that something like an overseas assignment or an overseas operation would involve the military. It certainly has a very army-like ring when spoken, but overseas assignment and operation can actually involve investigative services and the operatives that work for any investigative service.

Seth Olson, Kathleen Brown-Rice, Andrew Gerodias. Although professional counseling licensure portability has been a topic of interest for many years, limited empirical research has been conducted to examine state requirements to become a licensed professional counselor.

Professional Counselor Licensure Portability: An ...

By the end of 1993, Pablo Escobar was cornered. The cocaine king -- known as "El Patrón" -- was running out of money and options. His top assassins were either dead or had turned themselves in. Almost all of the senior members of the Medellín Cartel were either in prison, or had gone over to his rivals, a shadowy paramilitary group that called itself People Persecuted by Pablo Escobar ...

The cetacean skeleton is largely made up of cortical bone, which stabilizes the animal in the water. For this reason, the usual terrestrial compact bones, which are finely woven cancellous bone, are replaced with lighter and more elastic material. In many places, bone elements are replaced by cartilage and even fat, thereby improving their hydrostatic qualities.
