The CLEP covers two years worth of material. Those wishing to take the CLEP will have to do...

Chemistry with Lab - Easy Peasy All-in-One High School

Mini-lesson: I begin the lesson by explaining to students that the rest of the unit is going to use everything we have learned so far in a process called titration. I then show this video to give a brief visual overview of what titrations are.. I then ask the class some questions, and students share out answers in an informal environment: What is a titration?

During the seventeenth and especially eighteenth centuries, driven both by a desire to understand nature and a quest to make balloons in which they could fly (), a number of scientists established the relationships between the macroscopic physical properties of gases, that is, pressure, volume, temperature, and amount of gas. Although their measurements were not precise by today's standards ...
