And beside Draco, Harry walked along with a smile on his face, thinking about the evolutionary origins of human intelligence. In the beginning, before people had quite understood how evolution worked, they'd gone around thinking crazy ideas like human intelligence evolved so that we could invent better tools. The reason why this was crazy was that only one person in the tribe had to invent a ...

We can use non-spatial dimensions--time, color and perspective--to add dimension to otherwise static objects. For example, you may have seen an image on a 2-dimensional computer screen that appears 3-dimensional because of perspective. Using computer-generated perspective, architects can visually walk through a entire building's design before construction even begins see Figure 4.2 and Color Plate 22.
