Biology is the natural science that studies life and living organisms, including their physical
structure, chemical processes, molecular interactions, physiological mechanisms, development and
evolution. Despite the complexity of the science, there are certain unifying concepts that
consolidate it into a single, coherent field. Biology recognizes the cell as the basic unit of life, genes
as ...

The tree of life or universal tree of life is a metaphor, model and research tool used to explore the
evolution of life and describe the relationships between organisms, both living and extinct, as
described in a famous passage in Charles Darwin's On the Origin of Species (1859).. The affinities of
all the beings of the same class have sometimes been represented by a great tree.

Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.
