Evidence of common descent of living organisms has been discovered by scientists researching in a variety of disciplines over many decades, demonstrating that all life on Earth comes from a single ancestor. This forms an important part of the evidence on which evolutionary theory rests, demonstrates that evolution does occur, and illustrates the processes that created Earth's biodiversity.

Adaptation and Evolution - VDOE

We define strategic choices to give as generous acts that might increase the probability of a defined extrinsic reward. Strategic choices can involve the intrinsic rewards of altruistic choices (Capraro, 2017), but add the possibility of extrinsic gain, which is thought to be the dominant weight in the decision process (Frey and Oberholzer-Gee, 1997).

A comparative fMRI meta-analysis of altruistic and ...
