Is light matter? If it is, what form/state of matter is it? If it is not, why not? Question Date: 2004-01-20: Answer 1: I'm not sure if other scientists would answer this question the same way I do, but I think this is a very philosophical question that depends on what you mean by matter.. If you are asking if light carries energy and momentum, the answer is definitely yes.

A birthday attack is a type of cryptographic attack that exploits the mathematics behind the birthday problem in probability theory. This attack can be used to abuse communication between two or more parties. The attack depends on the higher likelihood of collisions found between random attack attempts and a fixed degree of permutations (pigeonholes). With a birthday attack, it is possible to ...

I have a set of data from which I want to plot the number of keys per unique id count ( $x = \text{unique\_id\_count}$ ,  $y = \text{key\_count}$ ), and I'm trying to learn how to take advantage of pandas. In this case:

### **python - Plot key count per unique value count in pandas ...**

In physics, hidden-variable theories are held by some physicists who argue that the state of a physical system, as formulated by quantum mechanics, does not give a complete description for the system. An example would be that quantum mechanics is ultimately incomplete, and that a complete theory would provide descriptive categories to account for all observable behavior and thus avoid any ...

1. Introduction and The Altered Glycan Theory of Autoimmunity. Since the discovery of altered IgG glycosylation in patients with rheumatoid arthritis , there has been mounting evidence favoring the role of glycans in the pathophysiology of autoimmunity. For example, it is now well established that the type of glycan present at residue Asn-180 of IgG1 helps dictate the effector function of the ...
