An explosive (or explosive material) is a reactive substance that contains a great amount of potential energy that can produce an explosion if released suddenly, usually accompanied by the production of light, heat, sound, and pressure. An explosive charge is a measured quantity of explosive material, which may be composed of a single ingredient or a combination of two or more.

Explosive - Wikipedia

A TI graphing calculator is ideal for students to use in math and science classes from middle school through college. Many standardized tests and college entrance exams permit or even require the use of a graphing calculator.
