acquired trait: A phenotypic characteristic, acquired during growth and development, that is not genetically based and therefore cannot be passed on to the next generation (for example, the large ...

Glossary - PBS: Public Broadcasting Service

The gene-centered view of evolution is a model for the evolution of social characteristics such as selfishness and altruism.. Acquired characteristics. The formulation of the central dogma of molecular biology was summarized by Maynard Smith: . If the central dogma is true, and if it is also true that nucleic acids are the only means whereby information is transmitted between generations, this ...

Gene-centered view of evolution - Wikipedia

Life is a characteristic that distinguishes physical entities that have biological processes, such as signaling and self-sustaining processes, from those that do not, either because such functions have ceased (they have died), or because they never had such functions and are classified as inanimate. Various forms of life exist, such as plants, animals, fungi, protists, archaea, and bacteria.

Life - Wikipedia

The glossary that follows assumes a definition of ecology--the study of interactions between organisms and their environment--much wider than what fits under the field's habitual statistical persona. Ecofeminism and ecopsychology are mentioned, for example, as are terms from organic gardening and permaculture.

One of the most important parts of choosing a research programme is finding a supervisor who has relevant expertise in your area of interest. When you find a supervisor who, or a project that, aligns with your research interests, you should make contact with the relevant potential supervisor/lecturer/Professor or NUI Galway staff member to discuss matters further.

Find a Supervisor/PhD Project - NUI Galway

Human Brain - Neuroscience - Cognitive Science The Human Brain is the most Complex Processor of Information on the Planet. Our ability to Process Information and Store Information, , is what makes us Human. Information Defines us, Information Controls us, Information Teaches us. Know your Processor, understand the Software (), and understand the Hardware ().

Human Brain - Neuroscience - Cognitive Science

La evolución biológica es el conjunto de cambios en caracteres fenotípicos y genéticos de poblaciones biológicas a través de generaciones. Dicho proceso ha originado la diversidad de formas de vida que existen sobre la Tierra a partir de un antepasado común. [1] [2] Los procesos evolutivos han producido la biodiversidad en cada nivel de la organización biológica, incluyendo los de ...
