Quantum theory contradicts common sense. Everyone who has even a modest interest in physics quickly gets this message. The quantum view of reality, we're often told, is as a madhouse of particles that become waves (and vice versa), and that speak to one another through spooky messages that defy normal conceptions of time and space.

(2003-07-26) 0 Zero is a number like any other, only more so... Zero is probably the most misunderstood number. Even the imaginary number  $i$  is probably better understood, (because it's usually introduced only to comparatively sophisticated audiences). It took humanity thousands of years to realize what a great mathematical simplification it was to have an ordinary number used to indicate ...
