When I commenced writing this chapter in 2008, Australia did not have a national Indigenous languages policy. However in August 2009, for the first time in Australia's history, the Commonwealth Government launched a strategy for preserving Indigenous languages: Indigenous Languages - A National Approach 2009 (National Approach). The National Approach sets out the Commonwealth Government's ...

Venturing into the environment of space can have negative effects on the human body. Significant adverse effects of long-term weightlessness include muscle atrophy and deterioration of the skeleton (spaceflight osteopenia). Other significant effects include a slowing of cardiovascular system functions, decreased production of red blood cells, balance disorders, eyesight disorders and changes ...

**Effect of spaceflight on the human body - Wikipedia**

Layered defense. The immune system protects organisms from infection with layered defenses of increasing specificity. In simple terms, physical barriers prevent pathogens such as bacteria and viruses from entering the organism. If a pathogen breaches these barriers, the innate immune system provides an immediate, but non-specific response. Innate immune systems are found in all plants and animals.

**Immune system - Wikipedia**

The IOE's main activity, however, is to organize employers whenever they have to deal with social and labour matters at the global level. In practice, most of this takes place in the ILO, which has responsibility for these questions in the United Nations system.

Lateral violence is a multilayered, complex problem and because of this our strategies also need to be pitched at different levels. In Chapter 3 I have looked at the big picture, with the human rights framework as our overarching response to lateral violence. In this Chapter I will be taking our strategies to an even more practical level, looking at how we can create environments of cultural ...
