Oracle 12c Database Administration Course Outline ...

RMS and Oracle-Rdb Advocacy. Subscript Notes: With software anything is possible. However, relational databases allow relational rules to be built-into the database while ISAM technologies require the accessing application software to support/enforce this.

OpenVMS Notes: RMS and Oracle-Rdb - Neil Rieck

An Oracle database is represented to clients as a service; that is, the database performs work on behalf of clients. The service name is included in the connect data part of the connect descriptor. To connect to a database service, clients use a connect descriptor that provides the location of the database and the name of the database service.

How to troubleshoot Oracle remote database connection | DaDBm

Hi, Hanging PL/SQL jobs and hanging external jobs need to be treated differently. - hanging pl/sql jobs are typically associated with a real background session which is hanging and issues can be tracked down using normal tools/methods to track down oracle hangs (see what sql statement is being run, see what locks are being held/waited on etc). - hanging external jobs may be the result of a ...

Answers to "Why are my jobs not running?&q... | Oracle ...

Inside the dbms_sqltune Package tasks. SQL tuning work is one of the most time consuming and challenging tasks faced by Oracle DBAs and application developers and the Oracle SQL Tuning Advisor is intended to facilitate SQL tuning tasks and to help the DBA find the optimal SQL

execution plan.

dbms_sqltune tips - Burleson Oracle Consulting

A very large database, (originally written very large data base) or VLDB, is a database that contains a very large amount of data, so much that it can require specialized architectural, management, processing and maintenance methodologies .

Very large database - Wikipedia

SQLTXPLAIN Tips - Burleson Oracle Consulting

Clarity: if the value I'm trying to store really is a boolean, then when I'm glancing at my model, it's clear that that's what the column is. Sure, if it's a char(1) that's a good indication, but not a sure-fire one.

Boolean Datatype - Oracle Ask TOM

improving performance with pipelined table functions. In January 2009, I wrote a section on performance tuning with pipelined functions for Steven Feuerstein's Oracle PL/SQL Programming, Fifth Edition. My contribution appears in Chapter 21 of the book, but I've re-printed it here for oracle-developer.net readers, courtesy of O'Reilly Media, Inc. Note that the following article contains ...

improving performance with pipelined table functions

MapWindow GIS. MapWinGIS is an Opensource SDK suite that sports an ActiveX Control that can run in Microsoft Windows.NET 2003, 2005, Visual Basic 6 environments.

MapWindow GIS

Red Hat Network (abbreviated to RHN) is a family of systems-management services operated by Red Hat.
