C How To Program Solution

C program for bubble sort: C programming code for bubble sort to sort numbers or arrange them in ascending order. You can modify it to print numbers in descending order. You can also sort strings using Bubble sort, it is less efficient as its average and worst case complexity is high, there are many other fast sorting algorithms like quick-sort, heap-sort, etc. Sorting simplifies problem ...

You're trying to rename a folder in Windows and Windows tells you "The action can't be completed because the folder or a file in it is open in another program." What, Windows? Really? OK, I'll close all the programs I'm running. But that didn't help. What could be wrong? The solution that worked for us was to tell Windows to stop creating hidden thumbnail files and then yelling at us when they ...
