Dichotomous Key Worksheets & Teaching Resources | TpT

Etymology. The term dichotomy is from the Greek language Greek: διχοτομία dichotomía "dividing in two" from δίχα dícha "in two, asunder" and τομή tomé "a cutting, incision".. Usage and examples. The above applies directly when the term is used in mathematics, philosophy, literature, or linguistics. For example, if there is a concept A, and it is split into parts B and not-B ...

Dichotomy - Wikipedia

Remind children that they used two different types of classification keys in previous lessons: branching database and a dichotomous key to identify different species of buttercup plants. In Year 4 they collected some minibeasts (invertebrates) and created classification keys to identify them or at least to classify them as insects, spiders ...

A leaf is a thin, dorsiventrally flattened organ, usually borne above ground and specialized for photosynthesis. In most leaves, the primary photosynthetic tissue, the palisade mesophyll, is located on the upper side of the blade or lamina of the leaf but in some species, including the mature foliage of Eucalyptus, palisade mesophyll is present on both sides and the leaves are said to be ...

In 1994, the Friends of the Jepson Herbarium began a program to provide educational opportunities for a broad audience of professional and amateur botanists. Today, the program continues to serve as a liaison between the scientific community and the public, a role we are dedicated to as we enter our 26th year of public programs.

Jepson Herbarium: Workshops - UC Berkeley

INTRODUCTORY. Systematics is a profoundly historical discipline, and we forget this at our peril. Only with a phylogeny can we begin to understand diversification, regularities in patterns of evolution, or simply suggest individual evolutionary changes within a clade.
