Acknowledgements. The members of the working group are very much indebted to the scientific committee of the 22 nd ISRS (Jörg Steinbach, chairman) for enabling the incorporation of the 'initial recommendations' as 'abstract-instructions' for the meeting. They would also like to acknowledge many more colleagues, too numerous to mention, who contributed to the initial nomenclature ...

Consensus nomenclature rules for radiopharmaceutical ...

The categories listed below are those that will be used at the Intel ISEF 2019. Local, regional, state and country fairs may or may not choose to use these new categories, dependent on the needs of their area. Please check with your affiliated fair(s) for the appropriate category listings at that level of competition.

Nuclear chemistry is the subfield of chemistry dealing with radioactivity, nuclear processes, and transformations in the nuclei of atoms, such as nuclear transmutation, and nuclear properties.. It is the chemistry of radioactive elements such as the actinides, radium and radon together with the chemistry associated with equipment (such as nuclear reactors) which are designed to perform nuclear ...

Nuclear chemistry - Wikipedia

where l is the membrane thickness, p_2 is the upstream pressure, and p_1 is the downstream pressure. Unlike flux, which depends upon l and Δp , P_A is typically viewed, to a first approximation, as being a material property that is much less dependent than flux on membrane thickness and Δp . For gas mixtures permeating through polymers, Δp is taken to be the partial pressure difference of the ...

Energy-efficient polymeric gas separation membranes for a ...

The history of chemistry represents a time span from ancient history to the present. By 1000 BC, civilizations used technologies that would eventually form the basis of the various branches of chemistry. Examples include extracting metals from ores, making pottery and glazes, fermenting beer and wine, extracting chemicals from plants for medicine and perfume, rendering fat into soap, making ...

When many people are considering setting up there first marine aquarium, they can develop a perception that water chemistry (parameters) in a salt water environment is a complex topic.In my experience, this is just not the truth. While you can take this topic to a level of highly in-depth analysis and complexity, in practically every situation you will run into you can have very great success ...
