geometry regents june 2010? i thought it was pretty easy! if you get 41 points its equal to a 65. but if i get less than a 20 out of 28 on multiple choice i can gain more points on the extended response right? i didnt like the question about the triangle and they wanted you to find the base angle of it. i put 12. is that the answer?

### **GEOMETRY REGENTS JUNE 2010? | Yahoo Answers**

1- the answer should have been that both sides of the equation are equal in mass. according to the law of conservation of mass, both sides should be equal in mass, in any equation or phase change.  
2- i had trouble on this one too, i chose CH<sub>4</sub> because CH<sub>4</sub> and the other choice with the two C's are both nonpolar cuz of their electroneg differences, theyre both symmetrical veritcally and horizontally. but CH<sub>4</sub> is symmetrical both diagonally as well. so i just guessed that one. dont know if my logic is perfectly right tho  
3- for Cu's physcal prop, i put that it has a very high melting point. its good to use as cooking pans because then the pan wont melt while cooking/heating it. for alluminum's physical prop i put that it has a lower density than Cu, so if it is used as a cooking pan, it would be lighter in weight. also, if the cooking pan has a low density, heat can travel through it more easily and cook the food better.

Failing grade doesn't go on transcript, just that you passed regents in each category (math, ela, science). You need 1 passed science regents. Usually one in 9th and one in 11th. So as long as you already have 1 passed science regents no need to retake. You need 2 math though
