Insulin (from Latin insula, island) is a peptide hormone produced by beta cells of the pancreatic

islets; it is considered to be the main anabolic hormone of the body. It regulates the metabolism of carbohydrates, fats and protein by promoting the absorption of carbohydrates, especially glucose from the blood into liver, fat and skeletal muscle cells. In these tissues the absorbed glucose is ...

Jane Seymour has been rather neglected by authors and historians, apart from Elizabeth Norton who has written a biography on her, probably because her relationship with Henry was rather short, seeing as Jane died around 17 months after her marriage to Henry, and many see her as a rather boring character. However, she is an [...]

INTRODUCTION. Some anthropologists and social psychologists maintain that love is a cultural universal. They believe that at least one variety of love, romantic love, is likely to have appeared in all human groups at all times in human history (see Hatfield & Rapson 2002). As evidenced by ancient human artifacts, it is clear that love, in one form or another, has always been on people's minds.
