Students get to practice measuring angles using built-in protractors in this fun geometry activity! After measuring, they'll put their angle knowledge to the test by classifying each angle as acute, obtuse, right, or straight. ...

### Classifying Angles Worksheets | Education.com

Measure and classify an angle. A line that has one defined endpoint is called a ray and extends endlessly in one direction. A ray is named after the endpoint and another point on the ray e.g.  $\overrightarrow{AB}$  The angle that is formed between two rays with the same endpoint is measured in degrees. The point is called the vertex
