To understand the evolutionary history of the gene region containing the leptin gene, Moffett et al. (2002) genotyped 1,957 individuals from 12 world populations for a highly variable tetranucleotide repeat polymorphism located 476 bp 3-prime of exon 3 of the leptin gene. The data revealed a common set of alleles shared among world populations, presumed to have arisen from a great ape ...

In statistical mechanics, entropy is an extensive property of a thermodynamic system.It is closely related to the number Ω of microscopic configurations (known as microstates) that are consistent

with the macroscopic quantities that characterize the system (such as its volume, pressure and temperature). Under the assumption that each microstate is equally probable, the entropy is the natural ...
