AP Chemistry Updates and New Resources for 2019-20. To help more students prepare for—and succeed on—the AP Chemistry Exam, we've clarified the course's focus starting with the 2019-20 school year and are introducing new resources for your classroom. We've also moved exam registration to the fall, a best practice that improves students' chances of earning college credit and placement.

R_f values are calculated by looking at the distance each component travels on the chromatography paper compared to the distance traveled by the solvent front. This ratio will be different for each component due to its unique chemical properties. When measuring the distance the component traveled, you should measure from the origin (where the middle of the spot originally was) and then to the ...
