Smart collaboration isn't easy, Gardner said: it's costly, risky and time-consuming, and firms should only commit if it really is smart. An additional point Gardner discussed are disparities in the collaborative efforts of women versus men.

The Verdict Is In: "Smart Collaboration" in Law Firms ...

Essentially, "workplace collaboration" is organized teamwork: setting processes in place to ensure that team members work together to make decisions. Teams may employ a range of practices depending on the industry, company, or project, but regardless of the tool, collaboration will strengthen the process and end product.

Icade chose Smart Office for collaborative working ...

- A 120+ person company is different than a 50 person company. There needs to be a lot more structure (but isn't always there yet). - Would be great to have more perks like 401k matching. - Office space is feeling strain of more employees, about time to move offices. - Could use more/healthier snacks.

SmartAsset - Don't waste your time | Glassdoor

This is a hugely important part of our collaborative culture - everyone "owns" the success of the company as well as the success of their team and themselves. Being ultra-collaborative is hard work, don't get me wrong, and that's why we take it seriously and work hard to make processes more efficient.

The Basics of Teamwork and Collaboration | Smartsheet

Why Read Smart Collaboration? That being said, the basic principles of smart collaboration offer a promising strategy for any forward-thinking business. While the book and Gardner's insights may have been meant for a higher level knowledge based company, it's easy to understand how they could apply to your small business too.
