Empathy is the capacity to understand or feel what another person is experiencing from within their frame of reference, that is, the capacity to place oneself in another's position. Definitions of empathy encompass a broad range of emotional states. Types of empathy include cognitive empathy, emotional empathy, and somatic empathy.

### **Empathy - Wikipedia**

Most first responders and EMS personnel do an outstanding job recognizing and handling people experiencing seizures. Yet people may also respond with inappropriate force to behaviors associated with seizures, interpreting undirected, involuntary, and unorganized movements as aggression. The results can be fatal for the person with epilepsy, especially when dangerous restraint practices are used.
