Is light matter? If it is, what form/state of matter is it? If it is not, why not? Question Date: 2004-01-20: Answer 1: I'm not sure if other scientists would answer this question the same way I do, but I think this is a very philosophical question that depends on what you mean by matter.. If you are asking if light carries energy and momentum, the answer is definitely yes.

A birthday attack is a type of cryptographic attack that exploits the mathematics behind the birthday problem in probability theory. This attack can be used to abuse communication between two or more parties. The attack depends on the higher likelihood of collisions found between random attack attempts and a fixed degree of permutations (pigeonholes). With a birthday attack, it is possible to ...
