The question with which we must start is: can animals with very different cognitive strengths and weaknesses be uniquely ordered by a single cognitive measure? From 2006 evidence has been gathering for a pan-primate metric by which we might be abl...

What is a good list of animals ordered by intelligence ...

In a hypothetical organism, structure X develops after structures A, B, and C. Biologists interested in the development of structure X remove various combinations of structures A, B, and C. Removal of structure A does not affect development of X. Removal of structure B prevents development of X. Removal of structure C does not affect development of X. Removal of both structures A and B results ...

Pseudogenes. Pseudogenes are DNA sequences that resemble functional genes but are generally thought to have no purpose. In fact many scientists think that pseudogenes are nothing more than

discarded genetic fossils of a bygone era when they did have some sort of important function.

Pseudogenes - detectingdesign.com

Design and planning resource for classroom teachers, instructional designers, and professors of education. The glossary lists, describes, and provides links for over 800 educational strategies, theories, and activities.

Glossary of Instructional Strategies

Animal languages are forms of non-human animal communication that show similarities to human language. Animals communicate by using a variety of signs such as sounds or movements. Such signing may be considered complex enough to be called a form of language if the inventory of signs is large, the signs are relatively arbitrary, and the animals seem to produce them with a degree of volition (as ...

Animal language - Wikipedia

Homosexual behavior in animals is sexual behavior among non-human species that is interpreted as homosexual or bisexual. This may include same-sex sexual activity, courtship, affection, pair bonding, and parenting among same-sex animal pairs. Various forms of this are found in every major geographic region and every major animal group.

Homosexual behavior in animals - Wikipedia

1. Introduction. The ability to understand the recursively embedded mindstates of other people (variously known as theory of mind, mentalising or mind-reading) is an important product of human evolutionary history that has profound implications for the way we interact with our world (e.g. Tomasello, Carpenter, Call, Behne, & Moll, 2005). Being able to interpret the mental states of others is ...

This article directly addresses the scientific evidences in favor of macroevolutionary theory and common descent. It is specifically intended for those who are scientifically minded but, for one reason or another, have come to believe that macroevolutionary theory explains little, makes few or no testable predictions, or cannot be falsified.

29+ Evidences for Macroevolution: Part 1 - TalkOrigins Archive

Course Area: Not a general education course Designations: Formative Experiences, Upper Division Writing Competency Completion of an Honors in the Major Thesis will count for both Upper-Division Writing and Formative Experiences. This process normally takes two to three semesters, during which you will register for six to nine hours of 4000-level thesis credit.
