Community assessment: application to community/public health nursing practice. Assessment, the first step of the nursing process, forms the foundation for determining the client's health, regardless of whether the client is an individual, a family, or a community. Nurses gather information by using their senses, as well as their cognition, past experiences, and specific tools.

Jesus' interactions with women are an important element in the theological debate about Christianity and women. Women are prominent in the story of Christ Jesus. He was born of a woman, had numerous interactions with women, and was seen first by women after his resurrection. He commissioned the women to go and tell his disciples that he is risen, which is the essential message of Christianity.
