Acid, Base, or Salt? The properties of acids and bases are caused by the ions they form in water. Due to the presence of ions, aqueous solutions of both acids and bases are electrolytes. Acids and bases react with each other to form a salt and water. The reaction is a double replacement reaction known as neutralization.

Acid, Base, or Salt? - Evan's Regents Chemistry Corner

Since there is a helium shortage, let's use that as an example. If we entirely used up all of the
helium available on the planet, would we keep helium on the periodic table or would we remove it
due to it no longer existing naturally on the planet?
