An aquarium (plural: aquariums or aquaria) is a vivarium of any size having at least one transparent side in which aquatic plants or animals are kept and displayed. Fishkeepers use aquaria to keep fish, invertebrates, amphibians, aquatic reptiles such as turtles, and aquatic plants. The term "aquarium", coined by English naturalist Philip Henry Gosse, combines the Latin root aqua, meaning water ...

Aquarium - Wikipedia

Keeping Pet Turtle in a Fish Tank is actually possible but only if a few conditions are met. First of all, turtle can grow up to a very large size and it's quite common to see one reaching at least one foot in length. With that in mind, the whole tank setup to keep the fish and your turtle should at least be able to hold about 80 gallons of water with the length of the tank measuring at ...
