Micrometers have a scale and use a knob of large circumference relative to the screw pitch to measure small amounts of motion directly. We use micrometer heads as our most advanced manual positioning mechanism for optical mounts and stages. Choose a micrometer when you need to measure manual motion, or need repeatable manual positioning.

A flipped classroom is an instructional strategy and a type of blended learning that reverses the
traditional learning environment by delivering instructional content, often online, outside of the
classroom. It moves activities, including those that may have traditionally been considered
homework, into the classroom. In a flipped classroom, students watch online lectures, collaborate in
