How can I monitor how much of the graphics card is used when I run a certain application? I want to see how much my application uses the GPU.

monitoring - Monitor the Graphics card usage - Stack Overflow

what computer? What specs? We seriously need to, at the very least know what OS and hardware you have, otherwise its pretty much impossible to work out what's wrong. I'd also look at event logs to see if there's anything interesting. The information we have, at the moment is you have a gateway monitor, very red lighting, and something is borked, and its insufficient to give a useful answer ...
