Assessment. To assess student understanding for this lesson, ask students to use the information on the Creature Cards they've collected and classify those organisms into the categories they think are appropriate.

### **Classify It! - Science NetLinks**

At the risk of oversimplifying, here are the three key things we do at knowledge discovery time with categories: 1. Filter—remove results that aren't in the right part of the category tree 2. Browse—navigate through content based on categories 3. Rank—move matching categories higher up a results list Done deftly, in theory, category-based ranking is hard to disagree with.

### **Quiz & Worksheet - Dichotomous Key | Study.com**

A dichotomous key is a tool created by scientists to help scientists and laypeople identify objects and organisms. Typically, a dichotomous key for identifying a particular type of object consists of a specific series of questions. When one question is answered, the key directs the user as to what question to ask next.
