The Virtual Lab is an online simulation of a chemistry lab. It is designed to help students link chemical computations with authentic laboratory chemistry. The lab allows students to select from hundreds of standard reagents (aqueous) and manipulate them in a manner resembling a real lab. More information and offline downloads. Please scroll below to find our collection of pre-written problems ...

ChemCollective: Virtual Labs

Like in the summary it was cheapest at WalMart but I had higher expectations for this to work better. I have a 10 year old can of Berryman's that was looking pretty gross inside so I thought it might be ineffective due to age or too much use but the new product was not any better.

Solutions and Mixtures Before we dive into solutions, let's separate solutions from other types of mixtures. Solutions are groups of molecules that are mixed and evenly distributed in a system. Scientists say that solutions are homogenous systems. Everything in a solution is evenly spread out and thoroughly mixed.
