A binomial distribution is one of the probability distribution methods. Binomial Distribution is expressed as  $\text{BinomialDistribution}[n, p]$  and is defined as; the probability of number of successes in a sequence of  $n$  number of experiments (known as Bernoulli Experiments), each of the experiment with a success of probability  $p$ .

## **Binomial Distribution Calculator | Probability ...**

Probability is the chance that the given event will occur. Use this online probability calculator to calculate the single and multiple event probability based on number of possible outcomes and events occurred.

Modal verbs of probability are often tricky for non native speakers of the English Language for a number of reasons. First, there is the notion that these words somehow express a percentage, or

degree, of probability.
