Here is a color-coded diagram of how these components are located on the printed circuit board: If you have questions about the specification or appearance of any item, check the part number at the Digi-Key site ([www.digikey.com](http://www.digikey.com)) first. Entering the part number in their search engine will give you access to both the catalog information and the data sheet from the manufacturer.

The topology of an electronic circuit is the form taken by the network of interconnections of the circuit components. Different specific values or ratings of the components are regarded as being the same topology. Topology is not concerned with the physical layout of components in a circuit, nor with their positions on a circuit diagram.
